Portfolio: ifejioforcdavid.netlify.app

Career objective: Motivated Frontend and Full-Stack Developer with a background in Computer Engineering and hands-on experience in JavaScript, React.js, Node.js, and TypeScript. Passionate about building responsive, scalable web applications with clean UX. Eager to contribute to innovative SaaS, fintech, or e-commerce platforms in remote or full-time roles

Technical Skills

Languages: JavaScript, TypeScript, Python, HTML, CSS

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, TailwindCss

Databases: MySQL

Tools & Platforms: Git, GitHub, VS Code, Figma

Concepts: Data Structures, Algorithms, Object-Oriented Programming

Projects

MoveXpress – AI-Powered Transportation & Logistics Platform
Frontend Developer | Team Port-Louis – Bootcamp Project | Nigeria | 2025
Link: https://movexpress.netlify.app

- Developed and deployed responsive web and mobile interfaces using React.js, translating complex Figma UX/UI designs into seamless, intuitive user experiences.
- Ensured full responsiveness and cross-device compatibility, delivering consistent performance across smartphones, tablets, and desktops.
- Collaborated on A/B testing for major UI elements and feature flows, helping improve user engagement and conversion rates.

Experience

ADOBROS NIGERIA
Sales Engineer / Business Manager (Lagos Nigeria)   **October 2022 – Present**

Key responsibilities:
- Joined a growing small business requiring a strategic overhaul of operations and a more scalable approach to technical product sales and service delivery.
- Enhance technical sales performance, streamline customer acquisition, and improve product/service delivery through operational improvements and strategic technology adoption.
- **Leveraged technical understanding** to develop compelling sales strategies and presentations, effectively translating complex product specifications into digestible, client-specific solutions.
- **Orchestrated the implementation of new digital platforms** for sales pipeline tracking (CRM), automated financial operations (invoicing), and **performance analytics**, significantly enhancing data-driven decision-making and operational transparency.

- Expanded the client base by **over 40% in 12 months** by enhancing the technical sales cycle and adopting a solution-oriented engagement model.
- Forged strong, lasting client relationships, resulting in consistent repeat business and securing valuable long-term contracts.

Airforce Institute of Technology (Youth Service)
Assistant Lecturer (Kaduna Nigeria)   **August 2021 – July 2022**

Key responsibilities:
- Communicated **complex technical concepts** effectively through lectures and presentations, fostering understanding for diverse student levels.
- Assisted in **curriculum design and content creation**, structuring information logically for effective knowledge transfer.
- **Analyzed and evaluated technical work** (assignments, exams), providing detailed feedback to improve student comprehension and identify areas for improvement.
- Participated in departmental initiatives, contributing to **process improvement and collaborative decision-making**.
- **Proactively researched and integrated emerging industry trends** into academic content, ensuring relevance and preparing students for modern engineering challenges.

Nigerian Television Authority (NTA)
Intern (Kaduna Nigeria)   **March 2018 – August 2018**

Key responsibilities:
- Worked with the transmission team to maintain system uptime and program availability, directly impacting service delivery for broadcast operations.
- **Contributed to the technical configuration and deployment of equipment** required for broadcast transmission, ensuring operational readiness.
- Developed a foundational understanding of **complex broadcast systems**, encompassing equipment diagnostics, troubleshooting, and preventive maintenance to ensure reliability.

Certificates

JavaScript Algorithms and Data Structures – FreeCodeCamp

Responsive Web Design – FreeCodeCamp

Languages

English, Igbo
